FOR IMMEDIATE RELEASE

## **International Network of Boutique Law Firms Sponsors SelectUSA Investment Summit**

WASHINGTON, DC, June 15, 2016 – The International Network of Boutique Law Firms (INBLF) will be a principal service provider sponsor of the [SelectUSA Investment Summit](#) June 19-21 in Washington, D.C.

“Our member law firms actively facilitate inbound direct investment to the United States from destinations around the world,” said Charles Kagay, president of INBLF. “INBLF’s experienced attorneys work closely with entrepreneurs, small to midsize businesses and large companies, and help their clients pursue investment opportunities and navigate the U.S. regulatory and tax environment.”

INBLF will showcase its member firms’ knowledge and skill in supporting clients investing and doing business in the United States at Booth 419 in the Summit Exhibition Hall. A distinguished network of boutique law firms across the United States and Canada and independent full-service firms internationally, INBLF is a Summit sponsor because its member law firms offer businesses, investors and entrepreneurs seamless access to high-quality legal services in the U.S. and around the world.

This is the third Investment Summit organized by SelectUSA for global investors. SelectUSA, which is housed within the U.S. Department of Commerce, serves as a single point of contact for entrepreneurs, businesses and companies seeking to invest in the United States.

The theme of this year’s SelectUSA Investment Summit is “The Innovation Advantage.” The Summit will feature investment opportunities from every corner of the United States for global investors.

High-profile business and government leaders—including President Barack Obama and Secretary of State John Kerry—will share insights on the latest policies, innovations and trends favoring business in the United States. Summit participants will include international companies, investors and entrepreneurs of all sizes seeking to establish or expand operations in the United States. Economic development organizations at the state, regional and local levels will be there ready to facilitate and spark business investment.

The International Network of Boutique Law Firms consists of carefully selected and experienced lawyers practicing in virtually every area of interest for business in U.S. markets and across the globe.
