ABOUT THE TASKFORCE

The goal of the Task Force is to develop strategies within the network to target companies for our legal services, with the aim of acquiring new business and expanding our offering to potential clients.

Just as the universe of potential clients is huge, so too is the list of legal competitors.

As we move into 2022, INBLF is eager to look for innovative and creative new methods to bring business to our member firms. The Task Force encourages involvement from all member firms, most notably those with expertise in matters related to cybersecurity, ransomware, and privacy law.

**UK is made up, for now, of three distinct legal jurisdictions: England and Wales; Scotland; and Northern Ireland. The positive is that data protection law is consistent across all three. There, however, may be matters such as civil litigation or criminal activity which will require the input of others as we can only practice English and Welsh law.
